Services

At STAT Courier, we take pride in delivering what's important to our clients. For State, Regional and County Libraries and Interstate Library Consortiums nationwide that need to move library materials consistently and cost effectively, we offer reliable logistics management solutions. Our partners look to us for solutions when they are frustrated with the lack of options for transferring library media from one site to another in a way that is reliable and cost-effective—all while maintaining the integrity of the media, without loss, damage or delay.

Our logistics management solutions include a full range of services, from scheduled to on-demand service, expedited deliveries, to overnight through 3 day library delivery service. Customized solutions include logistics and routing to all of your locations, barcoding, and real-time tracking if needed. Through specialized scheduling coordination, we strive to reduce transit delivery time, saving library staff time, oversight and money while providing you and your library patrons with an improved overall library experience that will drive utilization and door traffic due to a consistent and reliable library courier service.

Logistics Management

99

Kaleb Phillips, ILL & MOBIUS Coordinator, Christian County Library

We have been using STAT since fall 2009 for the 35 University System of Georgia Libraries and their various centers. We have been very pleased with the services. They do a great job with communicating with us and I think that makes the difference.

They are always responsive.

"

Merryll S. Penson, Board of Regents of the University System of Georgia

The service has been excellent at all times, the billings have been accurate, and the responsiveness of STAT's Georgia manager, Brian Clingen has been exceptional. The drivers have been uniformly businesslike, efficient, and polite. We have worked with two other vendors in the past, and STAT is by far the superior service in my experience.

99

Emerson Murphy, Director of System Services, Northeast Georgia Regional Library System

PPLD also appreciated STAT's entrepreneurial attitude, flexibility and willingness to problem solve as we tried various strategies and routes to come up with the most efficient system possible. STAT did a great job in providing us with a driver who was professional and engaged with our goal to meet challenging delivery times.

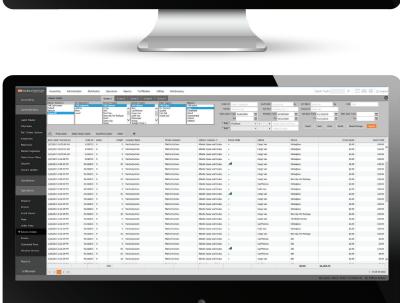

Technology Partnership

XCELERATOR

STAT Courier partners with Xcelerator, a technology provider whose sole focus is the courier industry. This software offers an improved user experience, extensive reporting and analytical capabilities, and easy-to-use tracking and monitoring tools. Additionally, Xcelerator offers comprehensive integration functionality so we can automatically transfer data to and from customers' systems, eliminating the need for manual data entry.
